Good nutrition and stress reduction are also key to this commonsense, big-picture approach. In addition, Dr. Maffetone dispels many of the commonly held myths that linger in participatory sports—and which adversely impact performance—and explains the "truths" about endurance, such as: The need to train slower to race faster will enable your aerobic system to improve endurance Why ...

4.0 out of 5 stars The big book of endurance trainig and racing. Reviewed in the United States on September 23, 2019. Verified Purchase. The book has a very original but logic approach. Makes a lot of sense. It is hard to start training at Max Aerobic heart race because it seems boring but then one learns to realize how much heart beat varies ...
