The Color of Money - Wikipedia

The Color of Money pursues the persistence of this racial wealth gap by focusing on the generators of wealth in the black community: black banks. Studying these institutions over time, Mehrsa Baradaran challenges the myth that black communities could ever accumulate wealth in a segregated economy. Instead, housing segregation, racism, and Jim Crow credit policies created an inescapable, but hard to detect, economic trap for black communities and their banks.

As explanations of the racial wealth gap and the persisting structural inequality of the U.S. economy, Dr. Mehrsa Baradaran's 2017 book, *The Color of Money: Black Banks and the Racial Wealth Gap*, is the ideal shelf-mate to Richard Rothstein's *The Color of Law: A Forgotten History of How Our Government Segregated America*, published the same year. These books provide the deep historical context of racism and its outgrowth as segregation in our neighborhoods and banking systems.

Book review: The Color of Money » NCRC

Mehrsa Baradaran's *The Color of Money* studies the role of financial structures in the American racial wealth gap. Noting that 60% of black Americans — relative to 20% of white Americans — are either unbanked or underbanked, Baradaran describes how depictions that attribute such inequality simplistically to racism ignore the colossal impact of the much subtler forces of 'commerce, credit, money and segregation' that underpin it, which have played a largely silent role in the wealth ...
