Siddhartha (first published in 1922) is a novel based on the early life of Buddha, inspired by the author's visit to India before the First World War. The novel is about the young Brahmin Siddhartha's search for self-realization. His quest takes him from a life of decadence to asceticism, from the illusory joys of sensual love with a beautiful courtesan, and of wealth and fame, to the painful struggles with his son and the ultimate wisdom of renunciation

In the spring of 1922, several months after completing Siddhartha, Hermann Hesse wrote a fairy tale that was also a love story, inspired by the woman who was to become his second wife. That story, Pictor's Metamorphoses, is the centerpiece of this anthology of Hesse's luminous short fiction. Based on The Arabian Nights and the work of the Brothers Grimm, the nineteen stories collected here represent a half century of Hesse's short writings. They display the full range of Hesse's lifetime fascination with fantasy--as dream, fairy tale, satire, or allegory.
