It's a small attention span world out there, and not everyone's interested in paging through lengthy tomes to deepen their intellect. They want their information. And they want it now. This book fills that void next to the recliner as the go-to reference whenever work conversations or bar trivia have you feeling stupid. The top ten academic subjects are broken into digestible pieces such as: Fast Facts: One-liners that delivers important information Repeatable Quotables: Smart words by smart people to make readers look smart by repeating Visual Aids: Graphs, charts, and tables for when even a few words are way too much Cheat Sheets: Chapter-ending recaps that reinforce the major points to take away Whether they want an answer to a biology question, or to brush up on their Spanish during a commercial break, this book is perfect for people who couldn't bother paying attention the first time.

This book is a comparative study of the sociological field in two different Muslim societies: Malaysia and Egypt. It analyses the process of the production of 'knowledge' through the example of the modern 'Islamization of knowledge debate' and local empirical variations.

This book was written for millionaires. Using systems analysis it shows the necessary and sufficient elements of the intellectual capital of an entrepreneur (ICE) that guarantee supersuccess in business. The entrepreneurial experience outlined in the book allows one to see components of success that earlier, perhaps, seemed less significant and meaningful, but which, with an attentive second look, can give a boost to reach a new level of success. The book contains a critique of Marxist economic theory, pointing out its failure to include a theory of value creation for a parameter as fundamentally important as an entrepreneurs' investment of intellectual capital.

Originally published in 1883, Paul Lafargue says this word here and another word here to pad out the description to make it at least 200 characters long. Yes, I know it is still not at 200 characters long. This is a Radical Reprint book, please steal this book, please just take the files from Internet Archive and just redistribute the book yourself if you want. Okay, cool, the description has been finished.

Can you name: All five movements of Beethoven's Missa solemnis. Check. The films that Kurosawa based on Western works. Check. Dante's Nine Circles of Hell. Check. If so, you're off to an edifying start--but that's just round one in this hard-hitting match of wits and wisdom. Take the formidable plunge--and find out if you are truly well versed enough to call yourself an aspiring pundit, poet, and philosopher. Either way, you'll be worthy of the esteemed moniker intellectual by the time you've gone the distance with this book. (As Thoreau is our witness.) Whether you are just beginning to suspect you're the possessor of superior acumen or you'd bet your Homeric

Greek translation of The Iliad on it, this book is an essential addition to any personal library.

During the past ten years the terms public sociology, civil society, and governance have been used with increasing frequency to describe a wide array of political and social practices. Nickel provides a critical clarification of the concepts of civil society and governance, moving beyond traditional disciplinary boundaries. With her unique international background in the practice of public service and social policy Nickel is able to provide a nuanced explanation of how civil society and governance are interrelated and the implications for the organisation of knowledge and public life. The book is framed in three parts. Part one explores the emergence of public sociology as an ideal, as well as the broader public turn in the social sciences. Part two explores the changing relationship between government and civil society, including non-profit organisations. Part three draws these two themes together in an exploration of the politics of practice and relations of power.
