bestselling autobiography written by her own multiple personalities. Successful, happily married Truddi Chase began therapy hoping to find the reasons behind her extreme anxiety, mood swings, and periodic blackouts. What emerged from her sessions was terrifying: Truddi's mind and body were inhabited by the Troops—ninety-two individual voices that emerged to shield her from her traumatizing childhood. For years the Troops created a world where she could hide from the pain of the ritualized sexual abuse she suffered at the hands of her own stepfather—abuse that began when she was only two years old. It was a past that Truddi didn't even know existed, until she and her therapist took a journey to where the nightmare began... Written by the Troops themselves, *When Rabbit Howls* is told by the very alter-egos who stayed with Truddi Chase, watched over her, and protected her. What they reveal is a spellbinding descent into a personal hell—and an ultimate, triumphant deliverance for the woman they became.

Documents the stories of the three women behind the famous multiple-personality-disorder case, contending that a large portion of the story was fabricated by a willing patient, her psychiatrist and an ambitious journalist who took advantage of a public that was psychologically primed to believe their claims. By the award-winning author of *Pornography*. 50,000 first printing.

Money, like sex, has been essential to the rise and development of civilization. The first known writings were records of simple business transactions and later on money came to be used as a common denominator for all goods. Current dealings with money have become infinitely more complicated than at the beginning of recorded history but its basic meaning is the same, a medium underlying all goods and services, in which comparative values are measured and by which they are acquired. Certainly, money is a vital and essential part of our everyday life. It is hard, if not impossible, to conceive of any of us going through a single day's series of experiences without using it or one of its symbolic equivalents: checks, credit cards, letters of credit, IOU's, scrip, food stamps or what have you. Both of us have had a longstanding interest in money, in what it could and could not buy, in investing, spending and allocating. Our personal interest in money antedated our professional training and our career pathways for we were people first before we became people who were therapists.

The powerful, moving and turbulent novel of Sally Porter and the multiple personalities she has no idea she lives with... From the award-winning bestselling author of *FLOWERS FOR ALGERNON*: 'Heartbreaking, and utterly, completely brilliant' *GUARDIAN* Sally Porter is perfectly 'ordinary'. A waitress, divorcee, and loner in the great city. But, though she is unaware of it, she is also four other, quite different people: Nola, the cold independent artist who has a studio in Greenwich Village; Derry, the happy-go-lucky tomboy; Bella, the highly-sexed live wire with a talent for singing and dancing; and finally Jinx, the hate-filled killer. Whenever events put too much of a strain on Sally Porter,

she feels a headache and a blackout coming on - and a new character takes over. If there is a man to be fascinated, she will become Bella. If there is an intellectual problem, she will become Nola. And - as happens in the opening scene of the novel - if there is a rapist to be dealt with, she becomes the vicious Jinx. It is the task of the wise and patient psychiatrist, Dr. Roger Ash - a man who nevertheless has severe problems of his own - to deal with this case of multiple personality and, through painstaking therapy, to try to fuse the four disparate personalities into "the fifth Sally."

Carolyn Bramhall grew up in what seemed to outsiders to be a normal home, with hard-working parents, surrounded by apparently caring relatives. She graduated from Bible college, married, found a job as a youth worker. Then nightmares and panic attacks started to swamp her. She, her husband and two small children moved to work in America, but the internal stresses grew worse - and a host of other personalities started to make their presence felt. In due course 109 separate entities, each created to carry some aspect of truly ghastly past pain, would identify themselves. What could she do?
