The Modern Losing Trick Count

Modern Losing Trick Count. If you want to bid accurately and achieve greatly improved results at the bridge table, you have to master the Losing Trick Count. It is a tried and tested method of hand evaluation which has stood the test of time.

Modern Losing Trick Count by Ron Klinger - Goodreads

History. The origins of the Losing Trick Count (LTC)-without that name-can be traced back at least to 1910 in Joseph Bowne Elwell's book Elwell on Auction Bridge wherein he sets out, in tabular form, a scheme for counting losers in trump contracts similar to the basic counting method given below. The term 'Losing Trick Count' was originally put forward by the American F. Dudley Courtenay ...

Losing-Trick Count - Wikipedia

The Modern Losing Trick Count : Bidding to Win at Bridge. If you want to bid accurately and achieve greatly improved results at the bridge table, you have to master the Losing Trick Count. It is a tried and tested method of hand evaluation which has stood the test of time.

The Modern Losing Trick Count : Ron Klinger : 9780575056503

The normal expectancy for minimum openin gs is 13 -15 points and 7 losers. As strength increases, there are more tricks so fewer losers. 16 -18 points with ordinary shape will usually have 6 losers. As strength decreases, there figure to be fewer tricks. With 10 -12 points and no special shape, ex pect 8 losers.

Losing Trick Count - Palo Alto Bridge

Losing Trick Count - A hand evaluation technique originally described by F. Dudley Courtenay's book "The System the Experts Play", and popularized by Ron Klinger in his book 'Modern Losing Trick Count', based on counting effective losers in a trump contract. Simply stated, once partnership has identified a 8+ card suit fit (unless the opener has a very strong-long major, e.g., a "self-sustaining suit"), each suit may be evaluated as containing between 0 to 3 losers:

Losing Trick Count: Bridge Hand Evaluation

LOSING TRICK COUNT (Developed by F. Dudley Courtenay, popularised by Maurice Harrison-Gray during 1930's) The Losing Trick Count used in conjunction with the standard point count, is a method of evaluating the trick taking potential of two combined hands playing in a suit contract. It primarily quantifies the 'shape' of the hand, and is merely a different but more formal way of adding points for length, singletons, or voids.

LOSING TRICK COUNT - BridgeWebs

Singleton suit : Count one loser, except for ace singleton (0). Doubleton suit : Count two losers except for A-K (0), A-x (1) or K-x (1). Count Q-x as 2 losers. 3-card or longer suit : Count three losers but deduct one for the ace, king or queen. Deduct one loser for each of these top cards. Examples

The Losing Trick Count In Bridge | Ron Klinger Bridge ...

The Modern Losing Trick Count WHAT IS THE LTC? A way of estimating the number of tricks your side will take in a trump contract. The great advantage is that it is significantly more accurate than point count.

HAND EVALUATION and the LOSING TRICK COUNT

The Losing-Trick Count (LTC) is an alternative, or supplement to the high card point (HCP) method of hand evaluation, used because shape and fit are of more significance, and oft times more accurate, than HCP in determining the optimum level for a makeable suit contract based upon a Partnership's combined holdings.

LOSING TRICK COUNT - fourseasonsbridge.com

Losing Trick Count (LTC) is a hand evaluation method popularized by Australian expert Ron Klinger. It's used to judge how high to bid after an 8+ card trump fit is identified. LTC employs the following math: Count the number of "winners" and "losers" in each of your suits: Each ace and king counts as a winner.

Losing Trick Count in Bridge Hand Evaluation and Bidding

1) In a trump contract, always count the trump suit. The best method is not the 'fingers method.' In other words, don't count '1-2-3-4' for the trick you see in front of you and then add '5-6-7-8-9' adding the 5 trumps in your hand. Instead, just take note of your side's trump fit. Say you have 5 and dummy has 3. You have 8 trumps.

Counting - Bridge Articles - Bridge with Larry Cohen

Bidding is over 75% of Bridge and the Losing Trick Count is a quantum leap for bidding. The LTC vastly improves bidding in suit contracts. This book both deepened my understanding of the game and improved my playing. This and OPENING LEADS by Ewen are the two indispensable books about Bridge.

East has 2 spade losers, 2 in hearts, 1 in diamonds and 2 in clubs which is also a total of 7 losers. A normal opening bid has 7 losers, which is the LTC for the West hand, and which East should generally expect as a minimum. East should presume a total between the two hands of no more than 14.

Losing Trick Count

The LAW of Total Tricks () is a bidding guideline developed by Jean-Rene Vernes. It helps you to decide how high to compete, using this approximation: With 8 partnership trumps, bid to the 2-level. With 9 trumps--3 level.

LAW of Total Tricks - Bridge Articles - Larry Cohen

The Losing Trick Count used in conjunctionwith the standard point count, is a method of evaluating the trick taking potential of two combined hands playing in a suit contract. It primarily quantifies the 'shape' of the hand, and is merely a different but more formal way of adding points for length, singletons, or voids.

LOSING TRICK COUNT - BridgeWebs

With only two cards, the queen becomes a loser (but count AQ as no losers and KQ as one loser). With only one card, just the A is not a loser. So Qx is two losers the same as xx but Kx is one loser as is the king or queen alone. Remember these are not real losers, just LTC losers as a form of hand evaluation.
