The Shape of Green: Aesthetics, Ecology, and Design is a 2012 non-fiction book by the American architect Lance Hosey. The first book dedicated to the relationships between sustainability and beauty, it outlines a set of principles for the aesthetics of sustainable design. It was first published on 1 June 2012 through Island Press.

The Shape of Green - Wikipedia
"The Shape of Green is a positive thesis. It might even inspire hope in the most pessimistic readers." --Metropolis
"The Shape of Green is essential nourishment for a smarter intuition, and Hosey's principles for design are just what we need for so-called sustainable design to mature past its awkward adolescence." --Environmental Building News

The Shape of Green: Aesthetics, Ecology, and Design ...
In The Shape of Green, nationally recognized architect and designer Lance Hosey offers an answer to the question: does going green change the face of design or only its content? The first book to outline principles for the aesthetics of sustainable design, The Shape of Green argues that beauty is inherent to sustainability, and that how things look and feel is as important as how they're made.

The Shape of Green - Island Press
'In The Shape of Green, Lance Hosey delivers a passionate critique of the design equivalent of CP Snow's 'two cultures' dichotomy.' --Urban Design
"The Shape of Green is essential nourishment for a smarter intuition, and Hosey's principles for design are just what we need for so-called sustainable design to mature past its awkward adolescence."

The Munsell color system is a color space that specifies colors based on three color dimensions: hue, value , and chroma (color purity), spaced uniformly in three dimensions in the elongated oval at an angle shaped Munsell color solid according to the logarithmic scale which governs human perception. In order for all the colors to be spaced uniformly, it was found necessary to use a color wheel with five primary colors—red, yellow, green, blue, and purple.

Shades of green - Wikipedia
The Shape of Green: Aesthetics, Ecology, and Design (Island Press, 2012), the first book to study the connections between sustainability and beauty, outlines a clear set of principles to bridge the gap between standards of "good design" and "green design." There is a relationship

The Shape Of Green
In Guillermo Del Toro's The Shape of Water, the color green comes up several times, but I feel like I missed something because it never seemed to serve a purpose in the film.Did Del Toro have some specific meaning for the use of the color green throughout the film? Some specific examples: When Giles completes his first ad for red Jello, he shows it to his superior who tells him that it needs ...

What is the meaning of the color green in The Shape of Water?
But Shape of Water intentionally doesn ' t go this route, instead of placing emphasis on greens and teals. And this plays well on a number of levels. First, it creates an otherworldly environment. The lab in which most of the story takes place is all green. The walls are green, the tile is green, and even the soap in the soap dispensers is green.

How THE SHAPE OF WATER Uses Color To Tell A Story
In The Shape of Green, Lance Hosey explores the critically important but too rarely discussed dimensions of this goal—elegance, joy, and beauty. (William McDonough, co-author of Cradle to Cradle: Remaking the Way We Make Things ) It's tomorrow's great design challenge: how to make sustainability not just likeable but loveable; and not just efficient but beautiful, sensual, sexy.

Are green buildings necessarily unsightly? Is sustainability incompatible with beauty? Lance Hosey /s answer is a resounding 'no, r' and in /The Shape of Green /' he argues that for far too long sustainable design has neglected aesthetics. If green is to fulfil its promise, it must be both efficient and appealing.
