Is peace an aberration? The bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR “Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book.”—H.R. McMaster, author of *Dereliction of Duty* and *Battlefields*:

Read Book The War That Ended Peace Road To 1914

The Fight to Defend the Free World

The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. War: How Conflict Shaped Us explores such much-debated and controversial

Read Book The War That Ended Peace Road To 1914

MacMillan
questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

National Bestseller New York Times Editors' Choice Winner of the PEN Hessel Tiltman Prize Winner of the Duff Cooper Prize Silver Medalist for the Arthur Ross Book Award of the Council on Foreign Relations Finalist for the Robert F. Kennedy Book Award For six months in 1919, after the end

of “the war to end all wars,” the Big Three—President Woodrow Wilson, British prime minister David Lloyd George, and French premier Georges Clemenceau—met in Paris to shape a lasting peace. In this landmark work of narrative history, Margaret MacMillan gives a dramatic and intimate view of those fateful days, which saw new political entities—Iraq, Yugoslavia, and Palestine, among them—born out of the ruins of bankrupt empires, and the borders of the modern world redrawn.

The First World War followed a period of sustained peace in Europe during which people talked with confidence of prosperity, progress and hope. This title offers the history of the political, cultural, military and personal forces which shaped Europe's path to the Great War.

Read Book The War That Ended Peace Road To 1914

Margaret Macmillan

A Times Literary Supplement Best Book of 2016 An epic, groundbreaking account of the ethnic and state violence that followed the end of World War I—conflicts that would shape the course of the twentieth century For the Western Allies, November 11, 1918, has always been a solemn date—the end of fighting that had destroyed a generation, but also a vindication of a terrible sacrifice with the total collapse of the principal enemies: the German Empire, Austria-Hungary, and the Ottoman Empire. But for much of the rest of Europe this was a day with no meaning, as a continuing, nightmarish series of conflicts engulfed country after country. In *The Vanquished*, a highly original and gripping work of history, Robert Gerwarth asks us to think again about the true legacy of the

Read Book The War That Ended Peace Road To 1914

First World War. In large part it was not the fighting on the Western Front that proved so ruinous to Europe's future, but the devastating aftermath, as countries on both sides of the original conflict were savaged by revolutions, pogroms, mass expulsions, and further major military clashes. In the years immediately after the armistice, millions would die across central, eastern, and southeastern Europe before the Soviet Union and a series of rickety and exhausted small new states would come into being. It was here, in the ruins of Europe, that extreme ideologies such as fascism would take shape and ultimately emerge triumphant. As absorbing in its drama as it is unsettling in its analysis, *The Vanquished* is destined to transform our understanding of not just the First

Read Book The War That Ended Peace Road To 1914

World War but the twentieth century as a whole.

A harrowing exploration of the collapse of American diplomacy and the abdication of global leadership, by the winner of the 2018 Pulitzer Prize in Public Service.

Margaret MacMillan, praised as “a superb writer who can bring history to life” (The Philadelphia Inquirer), brings her extraordinary gifts to one of the most important subjects today—the relationship between the United States and China—and one of the most significant moments in modern history. In February 1972, Richard Nixon, the first American president ever to visit China, and Mao Tse-tung, the enigmatic Communist dictator, met for an hour in Beijing. Their meeting

Read Book The War That Ended Peace Road To 1914

changed the course of history and ultimately laid the groundwork for the complex relationship between China and the United States that we see today. That monumental meeting in 1972—during what Nixon called “the week that changed the world”—could have been brought about only by powerful leaders: Nixon himself, a great strategist and a flawed human being, and Mao, willful and ruthless. They were assisted by two brilliant and complex statesmen, Henry Kissinger and Chou En-lai. Surrounding them were fascinating people with unusual roles to play, including the enormously disciplined and unhappy Pat Nixon and a small-time Shanghai actress turned monstrous empress, Jiang Qing. And behind all of them lay the complex history of two countries, two great and equally confident

Read Book The War That Ended Peace Road To 1914

Mao and Nixon: A Rivalry

civilizations: China, ancient and contemptuous yet fearful of barbarians beyond the Middle Kingdom, and the United States, forward-looking and confident, seeing itself as the beacon for the world. Nixon thought China could help him get out of Vietnam. Mao needed American technology and expertise to repair the damage of the Cultural Revolution. Both men wanted an ally against an aggressive Soviet Union. Did they get what they wanted? Did Mao betray his own revolutionary ideals? How did the people of China react to this apparent change in attitude toward the imperialist Americans? Did Nixon make a mistake in coming to China as a supplicant? And what has been the impact of the visit on the United States ever since? Weaving together fascinating anecdotes and insights, an

Read Book The War That Ended Peace Road To 1914

Understanding of Chinese and American history, and the momentous events of an extraordinary time, this brilliantly written book looks at one of the transformative moments of the twentieth century and casts new light on a key relationship for the world of the twenty-first century.

In the nineteenth century, at the height of colonialism, the British ruled India under a government known as the Raj. British men and women left their homes and traveled to this mysterious, beautiful country—where they attempted to replicate their own society. In this fascinating portrait, Margaret MacMillan examines the hidden lives of the women who supported their husbands' conquests—and in turn supported the Raj, often behind the scenes and out

Read Book The War That Ended Peace Road To 1914

of the history books. Enduring heartbreaking separations from their families, these women had no choice but to adapt to their strange new home, where they were treated with incredible deference by the natives but found little that was familiar. The women of the Raj learned to cope with the harsh Indian climate and ward off endemic diseases; they were forced to make their own entertainment—through games, balls, and theatrics—and quickly learned to abide by the deeply ingrained Anglo-Indian love of hierarchy. Weaving interviews, letters, and memoirs with a stunning selection of illustrations, MacMillan presents a vivid cultural and social history of the daughters, sisters, mothers, and wives of the men at the center of a daring imperialist experiment—and reveals India in all its richness and vitality. “A

Read Book The War That Ended Peace Road To 1914

marvellous book . . . [Women of the Raj] successfully [re-creates] a vanished world that continues to hold a fascination long after the sun has set on the British empire.” –The Globe and Mail “MacMillan has that essential quality of the historian, a narrative gift.” –The Daily Telegraph “MacMillan is a superb writer who can bring history to life.” –The Philadelphia Inquirer “Well researched and thoroughly enjoyable.” –Evening Standard

"Dan Reiter explains how information about combat outcomes and other factors may persuade a warring nation to demand more or less in peace negotiations, and why a country might refuse to negotiate limited terms and instead tenaciously pursue absolute victory if it fears that its enemy might

Read Book The War That Ended Peace Road To 1914

Margaret MacMillan. He fully lays out the theory and then tests it on more than twenty cases of war-termination behavior, including decisions during the American Civil War, the two world wars, and the Korean War. Reiter helps solve some of the most enduring puzzles in military history, such as why Abraham Lincoln issued the Emancipation Proclamation, why Germany in 1918 renewed its attack in the West after securing peace with Russia in the East, and why Britain refused to seek peace terms with Germany after France fell in 1940."
