Thin Air is a creepy, compelling tale of a Himalayan climbing expedition, where strange events on the mountain stir dread and panic. This vivid ghost story reads like a classic There are no obvious shocks here but instead a sustained creeping dread as the likelihood increases that it's not all in Pearce's mind and that they are heading for tragedy just like Lyell and company.

The Himalayas, 1935: Five Englishmen set off from Darjeeling, determined to be the first to conquer the summit of Kangchenjunga, third highest peak on earth. Their inspiration is a book by Charles Lyell, leader of an ill-fated expedition twenty-eight years before, which regales his heroism in the face of extreme odds. But courage can only take them so far - and the mountain is not their only foe. Charles Tennant, a survivor of the Lyell expedition haunted by his experience, warns them of dark things ahead; and it isn't long before macabre events hint that the climbers are not as isolated - or safe - as they think. As mountain sickness and the horrors of extreme altitude set in, the past refuses to stay buried. And sometimes, the truth won't set you free ...

January 1937. Clouds of war are gathering over a fogbound London. Twenty-eight year old Jack is poor, lonely and desperate to change his life. So when he's offered the chance to be the wireless operator on an Arctic expedition, he jumps at it. Spirits are high as the ship leaves Norway: five men and eight huskies, crossing the Barents Sea by the light of the midnight sun. At last they reach the remote, uninhabited bay where they will camp for the next year. Gruhuken. But the Arctic summer is brief. As night returns to claim the land, Jack feels a creeping unease. One by one, his companions are forced to leave. He faces a stark choice. Stay or go. Soon he will see the last of the sun, as the polar night engulfs the camp in months of darkness. Soon he will reach the point of no return - when the sea will freeze, making escape impossible. And Gruhuken is not uninhabited. Jack is not alone. Something walks there in the dark. National Bestseller "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." -PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for Into Thin Air, Krakauer's epic account of the May 1996 disaster. By writing Into Thin Air, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of Into Thin Air includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored The Climb, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

In 1974, two men vanished without a trace under suspicious circumstances, shocking the people of Iceland, where serious crime is almost nonexistent. More than a year later, there seemed to be a breakthrough when a small-time crook named Erla Bolladottir described a dream to police that they interpreted as a sign of trauma related to the men's disappearance. After lengthy interrogations, investigations, and courtroom dramas, Erla and five acquaintances confessed to killing both men and were given prison sentences ranging from three years to life. But over the years, the case against the convicted six began to disintegrate, and one major question remained unanswered: Why had they all confessed to murder if they hadn't done it?

Presents the stories of the sharps who have acted as expert consultants to Westerners climbing the Himalayas, focusing in particular on Chhiring Dorje Sherpa and Pasang Lama, who survived when 11 other climbers died on K2 in August 2008. 15,000 first printing.

Plagued by doubts and cold, group tension and a crevasse tragedy, the expedition tackled McKinley in minimal hours of daylight and fierce storms. They were trapped at three different camps above 14,000 feet during a six-day blizzard and faced the ultimate low temperature of -148° F. Minus 148° is Art Davidson's stunning personal narrative, supplemented by diary excerpts from team members George Wichman, John Edwards, Dave Johnston, and Greg Blomberg. Davidson retells the team's fears and frictions-and ultimate triumph-with an honesty that has made this gripping survival story a mountaineering classic for over 40 years. Minus 148° is featured among many "best of" reading lists, including National Geographic Adventure's "The 100 Greatest Adventure Books of all Time." "At twenty-two I came to regard the first expedition to Mt. McKinley in the winter as a journey into an unexplored land. No one had lived on North America's highest ridges in the winter twilight. No one knew how low the temperatures would drop, or how penetrating the cold would be when the wind blew. For thousands of years McKinley's storms had raged by themselves." -Minus 148° This title is part of our LEGENDS AND LORE series. Click here > to learn more.

Everest, the major motion picture from Universal Pictures, is set for wide release on September 18, 2015. Read The Climb, Anatoli Boukreev (portrayed by Ingvar Sigurðsson in the film) and G. Weston DeWalt's compelling account of those fateful events on Everest. In May 1996 three expeditions attempted to climb Mount Everest on the Southeast Ridge route pioneered by Sir Edmund Hillary and Tenzing Norgay in 1953. Crowded conditions slowed their progress. Late in the day twenty-three men and women-including expedition leaders Scott Fischer and Rob Hall-were caught in a ferocious blizzard. Disoriented and out of oxygen, climbers struggled to find their way down the mountain as darkness approached. Alone and climbing blind, Anatoli Boukreev brought climbers back from the edge of certain death. This new edition includes a transcript of the Mountain Madness expedition debriefing recorded five days after the tragedy, as well as G. Weston DeWalt's response to Into Thin Air author Jon Krakauer.
