Born and raised in Massachusetts, her family's home since the 1630s, Hannah Howell is the author of over thirty Zebra historical romances. Her love of history prompts the choice of venue, and also her dragging her husband Stephen, to every historical site she can get to. Her fascination with the past makes research as much a pleasure as a necessity. It was a thrill for her to turn her love of history and writing into a career, one that allows her to share those loves with others.

This book attempts to redress this issue by providing an overview of the recent developments in this field thereby providing a basis for the understanding of the structural performance and design of glass in buildings. Each chapter draws on

the latest developments in practice and research and contains contributions from various international glass experts. The mix of general and specialist content ranging from rules of thumb to fracture mechanics and novel applications to post-breakage performance make this book useful to practitioners and researchers. Furthermore, the text is supplemented by tables of the major codes of practice and by an extensive list of references.
