"Powerfully raw, deeply moving, and utterly authentic. Rachel Lloyd has turned a personal atrocity into triumph and is nothing less than a true hero.... Never again will you look at young girls on the street as one of 'those' women—you will only see little girls that are girls just like us." -Demi Moore, actress and activist

With the power and verity of *First They Killed My Father* and *A Long Way Gone*, Rachel Lloyd's riveting survivor story is the true tale of her hard-

won escape from the commercial sex industry and her bold founding of GEMS, New York City's Girls Education and Mentoring Service, to help countless other young girls escape "the life." Lloyd's unflinchingly honest memoir is a powerful and unforgettable story of inhuman abuse, enduring hope, and the promise of redemption.

are young and naive enough, like I was' Emma was just 13 when her happy childhood came crashing down. A nice girl from a good home, she had no idea the young lads she and her friends met every Saturday in the shopping mall weren't all they seemed. The boys were part of an organised child sexual exploitation gang targeting innocent young girls, grooming them for prostitution. Captivated by the ring leader, and the alcohol and drugs he freely handed round, Emma didn't see the first brutal rape coming. From that moment, her life was never her own. Emma found herself drawn into a trap of

Fighting Back and violence, frightened for her life and not knowing where to turn. But Exploited is also the story of how she found the courage and inner strength to risk everything, and escape. Exploited is an updated edition of Emma's book The End of My World - brought bang up to date with a brand new chapter.

At the vulnerable age of 12, Lara McDonnell was picked out by a gang of men who befriended her, showered her with attention and gained her trust. Manipulated and groomed, her life quickly spiralled out of

control as the men trafficked her around the country, deliberately keeping her compliant with drink and drugs. Deeply disturbed, and frightened about what the gang would do to her if she tried to break free, it would take over 4 years for Lara to find the strength to fight back, flee Oxford and escape her nightmare. This is her heartbreaking story.

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families,

communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of

In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors.

Fighting Back If acted upon in a coordinated and comprehensive manner, the recommendations of Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Now, as the owner of her own company which bills millions annually, she's set up the B.E.A.S.H.E.R.O Foundation, which seeks to help sexually-exploited teenage girls get off the streets of Las Vegas, teach them a viable skill and see they become independent members of society. Here is her story on how she went from a zero to a SHERO!

The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence. Comprehensive in breath and textbook in depth, the Encyclopedia of Adolescence - with entries presented in easy-to-access A to Z format - serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating

new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to "Self, Identity and Development in Adolescence". This area covers research relating to identity, from early adolescence through emerging adulthood; basic aspects of development (e.g., biological, cognitive, social); and foundational developmental theories. In addition, this area focuses on various types of identity: gender, sexual,

civic, moral, political, racial, spiritual, religious, and so forth. The second broad area centers on "Adolescents' Social and Personal Relationships". This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual and romantic as well as significant nonparental adults. The third area examines "Adolescents in Social Institutions". This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious

groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures, and youth organizations. "Adolescent Mental Health" constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions, and behaviors relating to mental health, from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology (DSM), normalcy, risk, victimization, disabilities, flow, and positive youth development.

He'd been her friend for years. He said he loved her. Then she realised she didn't know him at all...

Human trafficking involves the violation of societal norms and often activates criminal justice responses including police, courts, juvenile justice, and child protective services. Due to the complex nature of human trafficking, some behaviours that facilitate human trafficking cannot be easily identified and assigned to conventional crime categories. As a result of this complexity, criminologists have yet to fully explore the

Fighting Back problem of human trafficking. In recent years, however, there has been a growing interest among criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime. This edited collection of research aims to underscore these intersections in order to further improve the description, explanation, and prevention of human trafficking. Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports

on victim perceptions of their treatment by the police. Most notably, this volume has moved research on human trafficking beyond descriptive frequencies to sophisticated multivariate analyses. This book was originally published as a special issue of the Journal of Crime and Justice.

‘I was trapped. I’d been raped so many times, abused by hundreds, if not thousands. They could have left every door open and it would have made no difference. And I always came back -they always brought me back.’ From the age of 14, Caitlin was controlled, raped,

sold and passed on to new gangs across the UK over and over again. Her abusers were blatant in their attacks upon her, often collecting her from school or home, to be taken to flats they owned, family homes, or hotels booked for the day, to be horrifically and systematically abused. Having finally escaped, Please, Let Me Go is Caitlin's shocking story of abuse and survival.
