throughout is to show how the theories the authors outline and assess can help make sense of the puzzle of current world events, from the rise of Russia and China, the downturn in the world economy and the changing role of America to the challenges of identity politics and human rights. Clear and accessible, but also critical and penetrating, *Understanding International Relations* provides a uniquely readable and thought-provoking introduction to the theory and practice of international relations.

The fourth edition of this well-established and popular introductory

textbook has been updated to cover recent developments in the field of International Relations and world events, whilst still navigating the complexities of the discipline for new students. Brown and Ainley provide systematic coverage of the classical concerns of International Relations theory - power, national interest, foreign policy and war - alongside analysis of the impact of globalization on security, governance and the world economy. The authors actively avoid using a singular theoretical lens to conduct their survey, instead evaluating and using many throughout this book to further illustrate the nuances of the discipline. This is all while maintaining the focus on the discipline's focus on real world events, with case studies ranging from the recent rise of China and Russia to the global economic downturn, to teach students how the discipline can be applied to understanding the central and difficult

questions that the world faces today. Clear and accessible, but also critical and penetrating, this book is an essential text for undergraduate International Relations students today.

This text integrates post-Cold War events with the underlying structural characteristics of the international system that continue to resist fundamental change.

The fifth edition of this bestselling textbook offers a comprehensive and engaging introduction to International relations and has been fully updated to cover the dramatic changes in recent world politics. Written in the author's unique and engaging style, the text explores everything from foreign policy and security to global governance and the global economy, to show how the theories and concepts

Brown outlines are the only way to make sense of contemporary issues and events. With reference to such diverse events as Brexit, the Russian armed conflict in Ukraine, the financial crisis, the rise of China, and the challenges of identity politics, the author expertly shows how the range of theories presented in the book allow for an understanding of the destabilising events and developments that characterise global politics today, and will continue to do so in the future. This text remains the definitive guide to understanding international relations, and is suitable for undergraduate and postgraduate students of international relations at any stage of their studies.

Now in its fourth edition, this title has been fully revised and updated in the light of recent developments in world politics, with

new chapters on the changing nature of war, human security, and international ethics.

The book deftly balances theory and history to help students develop a well-rounded, informed framework for analyzing current issues and dilemmas. Updated with the most recent scholarship, the third edition explores the international issues confronting us as we enter the 21st century.*In-depth discussion and analysis of the impact of globalization and new technology on the international power structure in the post-Cold War era (Ch. 7).*Discussion of transnational threats to global security (Ch. 8).*Updated! Text has been completely updated and revised to reflect more recent developments on the international scene such as the conflict in Kosovo, the rise of China as a world economic power, nuclear

testing by India and Pakistan, and the growing role of NGOs and other non-state actors in international affairs.

This cutting-edge textbook is the most comprehensive introduction to international relations theory available. It argues that theory is central to explaining the dynamics of world politics, and includes a wide variety of theoretical positions, from the historically dominant traditions to powerful critical voices since the 1980s. The editors have brought together a team of international contributors, each specialising in a different theory. They each explain the theoretical background to their position before showing how and why their theories matter. The book opens up space for analysis and debate and leaves students to decide which theories they find most useful in explaining and understanding international relations. The book is

INTERNATIONAL POLITICS: POWER AND PURPOSE IN GLOBAL AFFAIRS, 4th Edition, helps you make the connection between analytical theories and real-world issues and events. The focus on power and purpose engages both the goals that actors have in international politics, and the ways they have to achieve them. Thought-provoking case studies and features on history, policy, and geography let you see the world from multiple perspectives, while critical-thinking questions for each feature ask you to examine what you have learned. The Connection to You boxes show how international politics directly affects the lives of individuals, and
