Developers who want to access USB devices from their embedded systems will find a helpful resource in USB Embedded Hosts: The Developer ' s Guide. This new book from the author of USB Complete shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. The book begins with a review of USB host communication protocols. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don ' t fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board using a distribution of Linux targeted to small systems. Also covered is how to use Linux commands and utilities to learn about, monitor, and debug communications with USB devices.

Study manual for FCC Commercial Radio License exams for Element 1 Radio Law, Element 3 General Radiotelephone Operator License, and Element 8 RADAR Endorsement. Includes official FCC question pools for exams starting July 2009. Includes answer explanations and illustrations to aid learning. Also has list of COLEMS that provide examination services.

Chemistry, Third Edition, by Julia Burdge offers a clear writing style written with the students in mind. Julia uses her background of teaching hundreds of general chemistry students per year and creates content to offer more detailed explanation on areas where she knows they have problems. With outstanding art, a consistent problem-solving approach, interesting applications woven throughout the chapters, and a wide range of end-of-chapter problems, this is a great third edition text.

Text by Christian Witt-Dorring.

If you're looking for construction projects for QRP transmitters, receivers and accessories, look no further. Experience first-hand the thrill of making contacts using equipment that you built!

"Solveig Hisdal is not only aware of the knowledge housed in Norway's museums, she has also learned how to use it. She has visited museums throughout the country, searching eagerly for the treasures that her ancestors left behind. She has found textiles, chests, cabinets and old folk costumes that have later become her greatest source of inspiration. This book is a result of her quest, and it shows how the creativity of the past has inspired her to make beautiful knitted designs. It contains wonderful knitting ideas for almost all occasions, from a child's christening outfit to an exquisite, knitted bridal cardigan with beads and silk. Whether you wish to be inspired by the beautiful pictures, or knit some of the outfits -- enjoy the book!"--P. [4] of cover.

Dr. Trent Moore's life is complete--a no-strings relationship, financial security, and great health--until he is summoned to his father's grave and discovers a grave robber has stolen one of his father's bones ... a finger bone. From there, Trent's seemingly perfect world spirals out of control. Strange occurrences happen, and the sexy lead detective informs him that a grief-stricken mother has placed a curse upon him. As his near-death experiences ramp up and he finds himself falling in love, he's beginning to believe there may be some truth to it all. But will he run out of time before he can tell Ciarra he loves her? When Detective Ciarra Pacelli is assigned to a prominent judge's suspicious death, she doesn't know her little world is about to be turned upside down. She discovers other possible victims of a deadly Voodoo curse, one being the gorgeous and stubborn doctor. As she becomes wrapped up in protecting him at all costs, she finds she's fighting against her developing feelings for him. Once she realizes she can't, she gives her all in finding a cure against the curse that promises to take him away from her for good.
