“Self-loathing is a dark land studded with booby traps. Fumbling through its dark underbrush, we cannot see what our trouble actually is: that we are mistaken about ourselves. That we were told lies long ago that we, in love and loyalty and fear, believed. Will we believe ourselves to death?” —from Unworthy As someone who has struggled with low self-esteem her entire life, Anneli Rufus knows only too well how the world looks through the eyes of those who are not comfortable in their own skin. In Unworthy, Rufus boldly explores how a lack of faith in ourselves can turn us into our own worst enemies. Drawing on extensive research, enlightening interviews, and her own poignant experiences, Rufus considers the question: What personal, societal, biological, and historical factors coalesced to spark this secret epidemic, and what can be done to put a stop to it? She reveals the underlying sources of low self-esteem and leads us through strategies for positive change.

Examines the nature, forms, and dynamics of self-hate and compassion, regarded as the strongest anti-therapeutic and therapeutic forces, respectively, and reevaluates society’s more important destructive cultural values and conventions

Rufus identifies a rather striking social trend: many people are stuck in the wrong relationship, career, or town, or just with bad habits they can't seem to quit. Many even say they want to change, but face a complex network of causes for immobilization.

Therese Borchart may be one of the frankest, funniest people on the planet. That, combined with her keen writing abilities has made her Beliefnet blog, Beyond Blue, one of the most trafficked blogs on the site. BEYOND BLUE, the book, is part memoir/part self-help. It describes Borchart’s experience of living with manic depression as well as providing cutting-edge research and information on dealing with mood disorders. By exposing her vulnerability, she endears herself immediately to the reader and then reduces even the most depressed to laughter as she provides a companion on the journey to recovery and the knowledge that the reader is not alone. Comprised of four sections and twenty-one chapters, BEYOND BLUE covers a wide range of topics from codependency to addiction, poor body image to postpartum depression, from alternative medicine to psychopharmacology, managing anxiety to applying lessons from therapy. Because of her laser wit and Erma Bombeck sense of humor, every chapter is entertaining as well as serious.

An essential defense of the people the world loves to revile--the loners--yet without whom it would be lost The Buddha. Rene Descartes. Emily Dickinson. Greta Garbo. Bobby Fischer. J. D. Salinger: Loners, all--along with as many as 25 percent of the world's population. Loners keep to themselves, and like it that way. Yet in the press, in films, in folklore, and nearly everywhere one looks, loners are tagged as losers and psychopaths, perverts and pity cases, ogres and mad bombers, elitists and wicked witches. Too often, loners buy into those messages and strive to change, making themselves miserable in the process by hiding their true nature--and hiding from it. Loners as a group deserve to be reassessed--to claim their rightful place, rather than be perceived as damaged goods that need to be "fixed." In Party of One Anneli Rufus--a prize-winning, critically acclaimed writer with talent to burn--has crafted a morally urgent, historically compelling tour de force--a long-overdue argument in defense of the loner, then and now. Marshalling a polymath's easy erudition to make her case, assembling evidence from every conceivable arena of culture as well as interviews with experts and loners worldwide and her own acutely calibrated analysis, Rufus rebuts the prevailing notion that aloneness is indistinguishable from loneliness, the fallacy that all of those who are alone don't want to be, and wouldn't be, if only they knew how.
