Valuation The Art And Science

I believe that most valuers tend to err on the side of valuation being an art rather than a science, mainly on the basis that it requires judgment and is a statement of opinion not fact. However, I believe it is reasonable to disagree with the proposition that valuation is an art not a science to some extent, i.e. one could argue that it is probably a mixture of the two.

Is Valuation an Art or a Science? - Marriott & Co.

Valuations of ventures are part art and part science, based upon mathematical formulas, knowledge, experience, and negotiating skills. The more knowledge entrepreneurs have about various valuation approaches, the more effective they can be in developing realistic valuations, defending their logic and negotiating terms.
