A superb new graphic memoir in which an inspired artist/storyteller reveals the road that brought his family to where they are today: Vietnamerica GB Tran is a young Vietnamese American artist who grew up distant from (and largely indifferent to) his family's history. Born and raised in South Carolina as a son of immigrants, he knew that his parents had fled Vietnam during the fall of Saigon. But even as they struggled to adapt to life in America, they preferred to forget the past--and to focus on their children's future. It was only in his late twenties that GB began to learn their extraordinary story. When his last surviving grandparents die within months of each other, GB visits Vietnam for the first time and begins to learn the tragic history of his family, and of the homeland they left behind. In this family saga played out in the shadow of history, GB uncovers the root of his father's remoteness and why his mother had remained in an often fractious marriage; why his grandfather had abandoned his own family to fight for the Viet Cong; why his grandmother had had an affair with a French soldier. GB learns that his parents had taken harrowing flight from Saigon during the final hours of the war not because they thought America was better but because they were afraid of what would happen if they stayed. They entered America--a foreign land they couldn't even imagine--where family connections dissolved and shared history was lost within a span of a single generation. In telling his family's story, GB finds his own place in this saga of hardship and heroism. Vietnamerica is a visually stunning portrait of survival, escape, and reinvention--and of the gift of the American immigrants' dream, passed on to their children. Vietnamerica is an unforgettable story of family revelation and reconnection--and a new graphic-memoir classic.

National bestseller 2017 National Book Critics Circle (NBCC) Finalist ABA Indies Introduce Winter / Spring 2017 Selection Barnes & Noble Discover Great New Writers Spring 2017 Selection ALA 2018 Notable Books Selection An intimate and poignant graphic novel portraying one family's journey from war-torn Vietnam, from debut author Thi Bui. This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent--the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. In what Pulitzer Prize--winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," The Best We Could Do brings to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

American Migrant Fictions focuses on novels of five American migrant writers of the late twentieth and early twenty first centuries, who construct spatial paradigms within their narratives to explore linguistic diversity, identities and be-longings.

In this sequel to the graphic memoir Such a Lovely Little War, young Marcelino and his family move from Saigon to swinging London in order to escape the war. There, he discovers an exciting new world of hedonists and hippies, while his mother slips further into her bipolar disorder, and Vietnam slips further into tragedy and heartbreak.

A first-born son and his daughter reconstruct his mother's extraordinary life as one of the first women admitted into a Chinese university during an era when most Chinese women were illiterate, and her secret arrangements to be buried alone rather than in the plot she and her devoted husband purchased. Reprint. 10,000 first printing.

In the jungle of Burma, the Zomi tribe lives modestly and peacefully. Thazama is a young, intrepid Zomi who loves hunting and playing games with his friend Moonpi. But the ensuing bloodbath of the 1988 Burmese revolution changes everything, making them hostages in their own country. Military forces impose strict rule over the people, demanding food and rations, men and women, many of whom will never return. Yet Thazama knows his destiny is to fight for freedom, and once initiated into adulthood he and Moonpi head for the great city of Mandalay, where Thazama continues on his road of no return on a harrowing journey through Southeast Asia, further and further from home.

One of the first books to look at how the Vietnamese themselves experienced the wars for Vietnam, including both the French and the American wars. Combining political, social, and cultural history, Bradley examines how the war was seen both by top policy makers and also everyday soldiers and civilians in both North and South Vietnam.

In the aftermath of treacherous war, Saigon--a city often compared to Paris--transforms into hellishness under the dictates of a cruel new government. A young Saigonese and her family flees to their earlier home in a peaceful village on the banks of a great river, but the repressive new regime is soon breathing down their backs again. Gambling everything, they put their lives and all their trust into an old frail antiquated and barely powered river boat. Never meant to traverse wide and deep waters such as the China Sea, it bobs like flotsam in waters patrolled by murdering pirates and subject to pounding storms. What follows is a miraculous event and good fortune delivers them to a Chinese fishing village within Malaysia, then a refugee camp outside Kuala Lumpur, and finally to a strange and wondrous place called San Diego, free of Viet Cong and monsoon rains and home to a yearly celebration in which kids can wear costumes and demand candy. Where many helpful people greet the newcomers with helping hands and open hearts. But also, where some people label newcomers as gooks, or worse, act as if they are completely without human value. This thrilling and touching story is told through the eyes of a girl born just after the pivotal Tet Offensive of 1968, which turned the tide of American opinion against the dubious Vietnam war, a girl merely ten years old when she and her family faced almost certain death but who found in America a land, and a welcome, that outstripped her ability to hope.

Darkroom: A Memoir in Black and White is an arresting and moving personal story about childhood, race, and identity in the American South, rendered in stunning illustrations by the author, Lila Quintero Weaver. In 1961, when Lila was five, she and her family emigrated from Buenos Aires, Argentina, to Marion, Alabama, in the heart of Alabama's Black Belt. As educated, middle-class Latino immigrants in a region that was defined by segregation, the Quinteros occupied a privileged vantage from which to view the racially charged culture they inhabited. Weaver and her family were firsthand witnesses to key moments in the civil rights movement. But Darkroom is her personal story as well: chronicling what it was like being a Latina girl in the Jim Crow South, struggling to understand both a foreign country and the horrors of our nation's race relations. Weaver, who was neither black nor white, observed very early on the inequalities in the American culture, with its blonde and blue-eyed feminine ideal. Throughout her life, Lila has struggled to find her place in this society and fought against the discrimination around her.

The Hill and Wang Critical Issues Series: concise, affordable works on pivotal topics in American history, society, and politics. Using newly available documents from both American and Vietnamese archives, Hunt reinterprets the values, choices, misconceptions, and miscalculations that shaped the long process of American intervention in Southeast Asia, and renders more comprehensible--if no less troubling--the tangled origins of the war.
