If like millions of others you know deep down that you deserve to do better than where you are today, than this book is for you. Not a book based on old fashion theories or textbook scenarios, The Millionaire Dropout is instead based on tried and tested methods of increasing personal skills, increasing your wealth, improving your life-style and releasing all the personal power that is locked up inside you. Based on the author's firsthand experience of bootstrapping himself out of failure, The Millionaire Dropout is for anyone who wants to learn the secrets for increasing their income and their standard of living. Divided into three sections readers will walk through the stages for taking control of their life, learning how to make more money, and learning how be smart with their successes. Everyone owes it to themselves to invest a little time and effort into increasing their standard of living and releasing the personal power that is locked up inside of us all.

Draws on the author's firsthand experience with overcoming failure to show how to increase personal skills, grow wealth, improve lifestyle, and fulfill potential.

A tape is available on completing the last page of the book and posting.

ReviewComley's argument is clear, honest, logical and jargon-free. He also throws in some astonishing stats, such as this one: that 6% we lose every year totals \u00a3170 billion -- or \u00a33,000 for every man, woman and child in the UK. That's a lot of money the finance industry makes from us. Best of all, Monkey With A Pin isn't selling you the dream of getting rich quick. In fact, it isn't selling anything at all. --Harvey Jones, Journalist, Motley Fool Monkey With A Pin explains to you exactly why neither you nor the fund managers you hire to run your money for you ever seem to make the kind of returns studies show the equity market is supposed to offer. --Merryn Somerset Webb, Editor-in-Chief, MoneyWeekBook DescriptionFor the first time, this book exposes exactly how most private investors perform in real life. It shows they are likely to perform 6% a year worse than the industry's theoretical predictions of their returns (whether using funds or direct investing). The book reveals that many have earned less than if they had saved in a building society. Part I of the book looks in detail at reasons why investors underperform: poor skill, charges and survivorship bias. The second part turns to the implications for the private investor, the finance industry and regulators. Monkey with a Pin encourages private investors to review their investing style and strategy to help them achieve better returns.

The modern world is networked and always working. Organizations no longer have the luxury of time. Expertise is no longer confined to a couple of smart guys in corner offices, reviewing information to which only they have access and issuing instructions through layers of middle-men to nine-to-fivers who carry out the dictates and feed paper back up the chain, awaiting the next set of instructions. Today's successful organization is decentralized and never stops moving. In fact, organizational success is a lot like soccer. Every player is both a specialist and generalist. Responsibility on the field is distributed, and everyone on the team works for everyone else. Communication among players is constant. Soccer is 90 minutes of systems thinking in action. Soccer Thinking for Management Success is by a soccer fan and player who has spent a career building and running teams and organizations. He draws on insights from leaders, known and not-so-well-known who use soccer thinking to succeed. This is not just another book on how to be a great leader by a famous person. This is a management and leadership book by, and for, the rest of us.
