As a child it was a good time to be alive and the thing about the past is that it has already happened. So it was a lovely read for me but I don't think it will appeal to an audience larger than those born just before the war as I was whose childhood took place during the 1940's.

War Child: Memories Of A World War Ii Childhood by Maurine ...

Childhood in war refers to children who have been affected, impaired or even injured during and in the aftermath of armed conflicts. Wars affect all areas of involved persons' life, including physical and mental-emotional integrity, social relations with the family and the community, as well as housing. More often than not, these experiences affect a child's further development. The Heidelberg Institute for International Conflict Research estimated that there were 226 politically-motivated armed

"War Child ... will help children connect with the past. They will read Maurine's memories and realize that Jesus Christ is the same, yesterday, today and forever" Carine Mackenzie

The story of a boy born into the turmoil of the aftermath of World War II Drama

One survivor tells of the fire-bombing of Dresden. Another survivor recounts the pervasive fear of marauding Russian and Czech bandits raping and killing. Children recall fathers who were only photographs and mothers who were saviors and heroes. These are typical in the stories collected in *The War of Our Childhood: Memories of World War II*. For this book Wolfgang W. E. Samuel, a childhood refugee himself after the fall of Nazi Germany, interviewed twenty-seven men and women who as children—by chance and sheer resilience—survived Allied bombs, invading armies, hunger, and chaos. “Our eyes carried no hate, only recognition of

what was," Samuel writes of his childhood. "Peace was an abstraction. The world we Kinder knew nearly always had the word "war" appended to it." Samuel's heartfelt narratives from these innocent survivors are invariably riveting and often terrifying. Each engrossing story has perilous and tragic moments—school children in Leuna who are sent home during an air raid but are strafed as moving targets; fathers who exist only as distant figures, returning to their families long after the war—or not at all; mothers who are raped and tortured; families who are forced into a seemingly endless relocation that replicates the terrors of war itself. In capturing such experiences from nearly every region of Germany and involving people of every socio-economic class, this is a collection of unique memories, but each account contributes to a cumulative understanding of the war that is more personal than strategic surveys and histories. For Samuel and the survivors he interviewed, agony and fright were part of everyday life, just as were play, wondrous experience, and above all perseverance. "My focus," Samuel writes, "is on the astounding ability of a generation of German children to emerge from debilitating circumstances as sane and productive human beings."

The childhood memories of a young German girl who suffered through the Nazi era during WWII.

My book is subtitled, "Recalling a World War II Childhood" and is a memoir of my peaceful childhood in Czechoslovakia; how my life was radically changed by the Holocaust, and my experiences in surviving six German concentration camps from the age of 14 - 15.

## Read Book War Child Memories Of A World War II Childhood

When Jos' parents are killed in an attack on their trading ship, the boy is kidnapped by the attackers and then escapes - only to fall into the alien hands of humanity's greatest enemies. He is soon coerced into becoming a spy against the human race.

Stolen Childhood is the story of what happened to some 380,000 Polish children who, with their families, were rounded up by Stalin's orders in 1939 and deported into Asiatic Russia. Lucjan Krolkowski, a young seminarian also deported there, shared and witnessed the suffering of his fellow Poles. Freed by an "amnesty," he joined the Polish Army, and when it moved to the Middle East, Lucjan resumed his theology studies, pronounced his vows, and became a chaplain to a Polish military hospital in Egypt. Reassigned to refugee camps in East Africa, Fr. Lucjan and the wandering Polish children met again in 1947 - a meeting that began a long and loving relationship. In 1949 when the Warsaw Communists claimed guardianship of the Polish orphans in Africa and demanded their repatriation, Fr. Lucjan was forced into a world of international intrigue. Called by the Communists "a kidnapper on an international scale," to his orphans, he was the good shepherd who led them to Canada, where he helped his charges overcome the theft of their childhood and become secure adults in a new world. Stolen Childhood is the book of memories he wrote for them, and a cautionary history for people of good will.

This captivating true story could easily be mistaken for a novel. It is beautifully written,

evocative and will effortlessly transport you to Hitler's war-torn Germany in an instant. So much happened to this war child, and indeed as she shares her profound childhood memories, she also offers an articulate war commentary that depicts the utter devastation they had to live through. Times were desperately difficult, but perhaps the lowest point of her childhood was when she and her family had to walk across Europe, begging for food and shelter. She recalls the horrific sights and smells of the Rheine battlefield in such vivid detail that you will struggle not to be moved. Join Annalisa and watch the lessons she learns and the experiences she goes through as she transitions from childhood into adulthood. Discover how she copes with her sick mother, find out about the various lodgers they had to take in to help make ends meet, learn all about the boys who fell under her spell and their marriage proposals, and Annalisa's colourful range of jobs. Despite the odds, Annalisa has survived to tell the tale and now almost in her 86th year, she has decided to share these intriguing memories, and hold nothing back.

Recounts the World War II experiences of a seven to twelve-year-old French boy from a middle-class Catholic family, describing how he reacted to the changing circumstances
