Politics is relevant. We the People is the best text for showing students that politics is relevant to their lives and that political participation matters—especially in the digital age. New coauthor Caroline Tolbert brings expertise in political behavior to deep revisions of key chapters, and new Digital Citizens boxes highlight the role of new media in politics.

Politics is relevant. We the People is the best text for showing students that politics is relevant to their lives and that political participation matters—especially in the digital age. New coauthor Caroline Tolbert brings expertise in political behavior to deep revisions of key chapters, and new Digital Citizens boxes highlight the role of new media in politics.

Emphasizing the relevance of politics and government in everyday life, We the People provides tools to help students think critically about American government and politics. The Sixth Edition has been carefully updated to reflect most recent developments, including the ongoing conflict in Iraq and the 2006 midterm elections. Complemented by a rich package of multimedia tools for instructors and students, including a new video-clip DVD, We the People is now more pedagogically effective than ever.

The most-trusted anthology for complete works, balanced selections, and helpful editorial apparatus, The Norton Anthology of American Literature features a cover-to-cover revision. The Ninth Edition introduces new General Editor Robert Levine and three new-generation editors who have reenergized the volume across the centuries. Fresh scholarship, new authors—with an emphasis on contemporary writers—new topical clusters, and a new ebook make the Norton Anthology an even better teaching tool and an unmatched value for students.

Using the principles and tools of sociology presented in his university course, Chris Dawson challenges the reader to reconsider the social reality of our society. This book exposes inconsistencies and deceptions in the conventional portrayal of America s experiment in democracy. His provocative social commentary explores the role of our military, the culture of fear, strategies in the war on terror, the excesses of corporate power, and our misconceptions about crime. He speaks of social inequality, social and racial group divisions, and offers unconventional views about education, medicine, universal healthcare, and the origins of religion. The doubts he raises will merit your serious reflection.

When sixteen-year-old Rashad is mistakenly accused of stealing, classmate Quinn witnesses his brutal beating at the hands of a police officer who happens to be the older brother of his best friend. Told through Rashad and Quinn's alternating viewpoints.

The extraordinary #1 New York Times bestseller about the ability of books to feed the soul even in the darkest of times. Nominated as one of America's best-loved novels by PBS's The Great American Read. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of I Am the Messenger, has given us one of the most enduring stories of our time. "The kind of book that can be life-changing." —The New York Times "Deserves a place on the same shelf with The Diary of a Young Girl by Anne Frank." —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF.

A 2019 Goodreads Readers' Choice Finalist for Best History A Washington Post Notable Nonfiction Book of 2019 A New York Post Best Book of 2019 Now with a new afterword, Garrett M. Graff's instant New York Times bestseller The Only Plane in the Sky, is the comprehensive oral history of September 11, 2001 that has been called "history as its most immediate and moving" (Jon Meacham) and "remarkable...a priceless civic gift" (The Wall Street Journal). Hailed as "remarkable...incredibly evocative and compelling" (The Washington Post) and "oral history at its finest" (Pittsburgh Post-Gazette), Garrett M. Graff's The Only Plane in the Sky is the most vivid and human portrait of the September 11 attacks yet, comprised of never-before-published transcripts, recently declassified documents, and original interviews and stories from nearly five hundred government officials, first responders, witnesses, survivors, friends, and family members. Here is a vivid, profound, and searing portrait of humanity on a day that changed the course of history, and all of our lives.

Developed from celebrated Harvard statistics lectures, Introduction to Probability provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo (MCMC). Additional

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers.It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States—which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean—it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks.Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts—it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7—it is nevertheless an essential record of one of the most transformational events of modern times.
