Why write a design document? A design doc also known as a technical spec is a description of how you plan to solve a problem. There are lots of writings already on why it's important to write a

Get Free Web Application

design doc before diving into coding. So all I'll say here is: A design doc is the most useful tool for making sure the right work gets done.

~~How to write a good software design doc - freeCodeCamp.org~~

You can use a functional specification document template to ensure that you include

Get Free Web Application

all the essential
development
information in a
document. In addition,
templates guarantee that
with each new initiative,
teams focus on the
requirements for the
product rather than
waste time determining
the design of the
specifications
document.
