A style guide is known in online marketing as a set of rules for the uniform design of an online presence. Your online presence isn't just your website - it also accounts for social networks and apps. A style guide works in partnership with corporate design and corporate identity to represent a company. It ensures that the visual identity of a company is immediately recognizable online.

Web style guides - IONOS Digitalguide

Traditionally these style guides were created as books which would be shared around to anyone who needed them. Nowadays it's just as popular to create a webpage dedicated to the company's branding guidelines. The following illustrative examples demonstrate the most important facets of any online style guide. If you're designing an online guide then spend time perusing this gallery to put together your favorite ideas and design elements.

Top 8 Free Online Style Guides in English - ThoughtCo

While it's awesome to see more and more websites sharing their design guidelines online, there are a few points to consider when creating your own style guide. First, support your design elements with clear instructions. There are a number of web design style guide examples out there that include all the elements of a design system, but with little to no information about when and why to use them.
